Superintendent

I would like to take this opportunity to wish the class of "79" Good Luck as they leave the friendly atmosphere of Simms High School.

The faculty as well as your parents have done the best job possible in preparing you for this transition. Your ability, however rests squarely on your own two shoulders. If you are willing to work hard, accept responsibility, and place your trust in a higher power, the way will be easier.

Vance Ramberg
Superintendent

Prinicpal

I have really enjoyed working with the Class of '79' over the past four years. The growth I have witnessed both physically and emotionally assures me that all of you possess the necessary attributes to succeed. I would like to think that in some small way your experiences at Simms High School will better enable you to overcome the obstacles we must all face.

Please come back and visit us, we can certainly learn a great deal from you. You can help us make a better school for the future generations of the Sun River Valley.

Good Luck, I know you will all make it just fine.

Richard A. Walker
Principal

Save Your Money

MEN — WOMEN

**Take up to 365 days
to say good-bye.**

Good-bye can mean more than a peck on the cheek when you take advantage of the Army's Delayed Entry Program.

Good-bye can mean 365 days to finish unfinished business, plan your future, spend one more season on the beach or the slopes before you go off to tackle the world.

But the best part of Delayed Entry lies ahead. By enlisting now, then relaxing and reporting for duty later, the Army can promise you the training you want more than any other — skill training it's often hard to find in civilian life.

If you qualify, Delayed Entry also lets you pick the place you want to serve a good part of your Army life — Hawaii, Korea, the Canal Zone, Europe or Alaska.

Say hello to your Army Recruiter. Soon you could be saying a lot of sweet good byes.

to save energy — to save money

The natural gas that heats your home is a valuable energy resource. One way to conserve natural gas is to use less of it by setting your thermostat at the lowest comfortable level and leaving it there. Frequent changing of thermostat settings wastes energy. And, think about this — lowering your thermostat setting can help lower your gas bill.
